DID Emergency Information Card — How to Help

I have a condition known as Dissociative Identity Disorder. I am not 'mad' and nor am I attention-seeking or time-wasting. I have a history of severe childhood trauma and DID is a coping mechanism for this. DID is treatable via psychotherapy.

I have different 'parts', 'alters' or 'personalities'. These may present as being of a different gender, age and developmental stage. We may be very frightened and traumatised and have difficulty distinguishing between the past and the present, so we may find it really hard to calm down. Please be careful about touching us and be gentle and patient. 'Alter personalities' may not be aware of what we have done (e.g. self-harm or attempted suicide) or where we are. We may be very disorientated and amnesic for what has just happened. Please try to understand our behaviours in the light of our past experiences.

This card is produced by PODS (Positive Outcomes for Dissociative Survivors). For more information please go to www.pods-online.org.uk, email us at info@pods-online.org.uk or phone 01480 413582 (support) or 01480 878409 (office).

IN CASE OF EMERGENCY—DOS and DON'TS

DO NOT contact my biological family or allow them access to me.

DO NOT physically touch me or restrain me (especially handcuffs).

DO NOT leave me alone only with men.

DO NOT remove my clothing.

DO NOT do physical examinations involving needles unless absolutely essential for medical reasons.

DO NOT treat me harshly, get cross with me, use raised voices or physical force.

DO talk to me quietly and gently, remind me to breath, and give me time and space to settle.

DO try to contact my therapist or allow me to do so.

DO try to orientate me to the present, reassure me that I am safe and not in trouble.

DO try to see that I am reacting out of past trauma and possibly having a flashback.

DO talk to me regardless of how I present, e.g. as a child, opposite gender, etc, and do not belittle, criticise or coerce me for doing so—do read the rest of this card to understand a little more about my condition and why I am acting the way I am.
